Garbage is a great environmental hazard. It comes from various sources used paper, tiffin, packing, plastic bags, ice-cream, wrappers, bottle caps, fallen leaves from trees and many more. Garbage makes the premises ugly, unkempt and breeds diseases. A lot of trash that thrown away contains material that can be recycled and reused such as paper, metals and glass which can be sent to the nearest recycling center or disposed of to the junk dealer. It also contains organic matter such as leaves which can enrich soil fertility. A compost pit can be made at a convenient location where the refuse can be placed with
